UOI

Transdisciplinary theme: Sharing the planet

Central Idea–Living things interact with and depend on Earth's landforms and resources

LOI 1 – Characteristics of insects and landforms

LOI 2 – How insects depend on and adapt to different landforms

LOI 3 – Human responsibilities in protecting insects and landforms

Insects & landforms

1.Harmful Insects – Cures and Precautions

(Basic first aid, prevention, and safety measures)

2.Beneficial and Harmful Insects

(Understanding their roles in nature)

3.Interdependence Between Insects, Landforms, and Humans

(How all are connected and depend on each other)

4.Care and Protection of Landforms and Surroundings

(Our responsibility towards Earth and natural habitats)

5.Healthy Landforms, Healthy Living

(Clean surroundings to reduce harmful insects)

6.Human Actions and Their Impact on Insects and Landforms

(Cleanliness, pollution, and conservation)

Activities:

Presentation

Audio visual videos

Group task

Application group task

Integrated with: Library,

Computers

Application: MS POWERPOINT

Completing the slides.

Topic: Insects(Integration with UOI - sharing the planet)

Presentation of the slides by each group.

Assessment of the presentation.
