Assessment

UOI

Transdisciplinary Theme- Sharing the planet

Central Idea-Food systems connect people and the environment, and the choices we make influence the sustainability of our planet.

Lines of Inquiry-

1. **Food systems connect people, animals, and the environment** (producers, consumers, natural resources)
2. **Processes involved in bringing food from farm to table** (production, packaging, transportation, and distribution)
3. **The impact of our food choices on the environment and communities** (waste, pollution, fair access, sustainability)

Activities-

- Research work
- See Think Wonder
- Slogans making activity on waste management
- Paper bags making activity
- KWL Chart

Integration with subjects: English, Marathi and Visual Arts.

ATL skills focused on: Research skills

Revision

On click, After Previous, Timing
Slideshow

Exercises:

*Preparing a “Happy Christmas” slide by inserting WordArt, shapes, and pictures from the device, and applying animations to the objects and a design to the slide.

Visual Arts

christmas tree wealth out of waste

Objective- To build awareness about sustainability and responsible use of resources.

Through the *Wealth out of Waste* Christmas tree activity, PYP 2 students developed creativity by transforming waste materials into meaningful decorations.

They strengthened fine motor skills and planning while decorating the tree cutouts.

The activity promoted environmental awareness and responsible choices.

Students also built confidence and collaboration through hands-on learning.

Indian Music

Western Music

Christmas Carols

Dance

- Bhumi pranam
